

Attention: Primary School Mathematics Teachers

Managing a class: Putting it all together in the NumberSense classroom

NumberSense Mathematics Programme

Brombacher and Associates (Aarnout Brombacher) is presenting a one-day workshop for Foundation Phase Numeracy and Intermediate Phase Mathematics teachers on *Managing a class: Putting it all together in a NumberSense classroom*.

This workshop targets teachers who are newer to, or unfamiliar with, the effective implementation of the NumberSense Mathematics Programme and want to derive the full benefit from it. This workshop is a repeat of the same workshop presented in 2018.

In this workshop we will explore:

- Planning and executing mathematics lessons using the NumberSense Mathematics Programme.
- Classroom organisation and lesson delivery.
- Teaching mathematics for understanding, application and reasoning.

The cost per participant is R600 (VAT incl.) and includes: teas, a light finger lunch AND four NumberSense Workbooks for the grade that the participating teacher teaches¹.

To attend, please **REGISTER ONLINE** at www.NumberSense.co.za/shop or submit your details by email (orders@brombacher.co.za) or fax (021-706-3779) to Shirlaine or Fierdous (tel: 021-706-3777). On receipt of your details we will fax/email you an invoice which must be paid to reserve your place at the workshop. Spaces are limited so book early to avoid disappointment! Note: cancellations made less than 48 hours before the workshop cannot be refunded.

Date: Sat 25 May 2019

Venue: Livingstone Primary
74 Livingstone Road, Durban
