

Attention: Primary School Mathematics Teachers

Diagnostic assessment and remediation programmes in the NumberSense classroom

NumberSense Mathematics Programme

Brombacher and Associates (Aarnout Brombacher) is presenting a one-day workshop for Foundation Phase Numeracy and Intermediate Phase Mathematics teachers on: *Diagnostic assessment and remediation programmes in a NumberSense classroom.*

In this workshop we will explore:

- The administration and interpretation of the NumberSense diagnostic assessments (Please bring a tablet if you can so that you can interact with the digital version of the assessment).
- What the diagnostic assessments tell us and what we do with this information.
- How to provide differentiated support in response to the assessment information.

The cost per participant is R600 (VAT incl.) and includes: teas, a light finger lunch AND four NumberSense Workbooks for the grade that the participating teacher teaches¹.

To attend, please **REGISTER ONLINE** at www.NumberSense.co.za/shop or submit your details by email (orders@brombacher.co.za) or fax (021-706-3779) to Shirlaine or Fierdous (tel: 021-706-3777). On receipt of your details we will fax/email you an invoice which must be paid to reserve your place at the workshop. Spaces are limited so book early to avoid disappointment! Note: cancellations made less than 48 hours before the workshop cannot be refunded.
