

Attention: Primary School Mathematics Teachers

The NumberSense Companion Activities in the NumberSense classroom: Geometry

NumberSense
Mathematics Programme

Brombacher and Associates (Aarnout Brombacher) is presenting a one-day workshop for Foundation Phase Numeracy and Intermediate Phase Mathematics teachers on *The NumberSense Companion Activities in a NumberSense classroom: Geometry*.

In this workshop we will explore:

- How the NumberSense Companion Activities (which address measurement, geometry and data handling) together with the NumberSense Workbooks provide a comprehensive mathematics programme that addresses the mathematics curriculum expectations from Grade R to Grade 7.
- Developing geometric thinking in a NumberSense classroom with the focus on understanding, application and reasoning.
- Van Hiele’s levels of geometric thinking and phases of learning.
- The exciting and innovative range of interactive and grade-appropriate NumberSense geometry activities.

The cost per participant is R600 (VAT incl.) and includes: teas, a light finger lunch AND four NumberSense Workbooks for the grade that the participating teacher teaches¹.

To attend, please **REGISTER ONLINE** at www.NumberSense.co.za/shop or submit your details by email (orders@brombacher.co.za) or fax (021-706-3779) to Shirlaine or Fierdous (tel: 021-706-3777). On receipt of your details we will fax/email you an invoice which must be paid to reserve your place at the workshop. Spaces are limited so book early to avoid disappointment! Note: cancellations made less than 48 hours before the workshop cannot be refunded.

Date: Sat 9 November 2019

Venue: Kingswood College
Cohen Lecture Room (opposite the Library)
1 Burton Street, Grahamstown, 6139

Time: 08:30 till 15:30

Cost: R 600

PARTICIPANT DETAILS: Grahamstown Workshop (Kingswood College) 9 November 2019
