

Posters for mat work

Instructions:

1. Print the poster that you would like to use on A4 paper.
2. Using a photocopier machine, make enlarged copies of the posters.
We suggest using white A3 cardboard.
Note: to copy from A4 to A3 you must change the enlargement setting to 141%.
3. Laminate the A3 posters.
4. You can now use a white-board marker, or non-permanent overhead marker, to write on the posters. This way you can wipe off what you have written and use the same poster again for another activity.
